DAUREN KOSHKENBEK

SOC Analyst L1 | AI Security Testing

Astana, Kazakhstan | daurencd@gmail.com | https://daurencd.xyz/
github.com/daurencd01 | linkedin.com/in/dauren-koshkenbek-6b90a9358

PROFESSIONAL PROFILE

Cybersecurity graduate and SOC Analyst L1 with hands-on experience in security monitoring, alert triage, and analysis of network, endpoint, and system logs. Practical AI testing includes prompt-injection experiments and creating attack scenarios and test cases. Combines a defensive security foundation with Python, Docker, CLI, and YAML skills for structured security testing.

TECHNICAL SKILLS

AI security testing: Prompt injection, adversarial testing, attack scenario design, security test cases, vulnerability analysis
Security operations: Splunk SIEM, security event monitoring, log analysis, alert triage, incident investigation, network security
Tools and scripting: Docker, command-line tools, YAML, Python, Linux, Git, Wireshark

AI SECURITY TESTING EXPERIENCE

AI testing internship | Astana Hub | Sep - Dec 2024
- Tested AI-system behavior with prompt-injection techniques and adversarial inputs during a university-arranged internship.
- Created attack scenarios and security test cases for repeatable evaluation of model responses.

PROFESSIONAL EXPERIENCE

SOC Analyst L1 | Sauyt Lab (Freedom), Kazakhstan | Feb 2026 - Present
- Monitor security events and triage alerts with Splunk SIEM; analyze network, endpoint, and system logs.
- Conduct initial investigation of suspicious activity and potential indicators of compromise; escalate suspected incidents.

SOC Analyst L1 | Sr Holding, China | Sep 2025 - Feb 2026
- Monitored security events in an international SOC and analyzed network, endpoint, and system logs.
- Triaged alerts, investigated incidents at first-line level, and escalated when required.

Network Security Project Participant | Kazakhtelecom (Sapa+), Kazakhstan | Jan - Jun 2025
- Supported secure network infrastructure and monitored network security events in a telecom environment.

SELECTED SECURITY PROJECTS

KD_SEC Security Tools | Personal project
- Built passive web security checks for TLS, HTTP headers, cookies, CORS, and exposed files, plus OSINT lookups using WHOIS/RDAP, DNS, certificate transparency, and Wayback.

PentestAI | Design-stage project
- Documented architecture for an AI-assisted web penetration testing platform with verification and evidence requirements.

HackShield | Graduation project
- Developed a gamified cybersecurity training platform with interactive missions and challenges using React, TypeScript, and Supabase.

EDUCATION AND TRAINING

Bachelor's Degree in Cybersecurity | Astana IT University, 2026
CyberShield Certified SOC Analyst (CSCSA) | CyberShield Academy / State Technical Service
Red Hat System Administration I (RH124) | Red Hat training
