DAUREN KOSHKENBEK

SOC Analyst L1 | AI Security Testing

Astana, Kazakhstan | daurencd@gmail.com | daurencd.xyz
github.com/daurencd01 | linkedin.com/in/dauren-koshkenbek-6b90a9358

PROFESSIONAL PROFILE

Cybersecurity graduate and SOC Analyst L1 with hands-on experience in security monitoring, alert triage, and analysis of network, endpoint, and system logs. Practical AI testing includes prompt-injection experiments and creating repeatable attack scenarios and test cases. Uses Python, Docker, CLI, and YAML in structured security testing workflows.

AI SECURITY TESTING EXPERIENCE

AI testing internship | Astana Hub, Kazakhstan *25 Sep - 20 Dec 2024*

- Tested AI-system behavior using prompt-injection techniques and adversarial inputs during a university-arranged internship.
- Created attack scenarios and security test cases to evaluate and document model responses reproducibly.

PROFESSIONAL EXPERIENCE

SOC Analyst L1 | Sauyt Lab (Freedom), Kazakhstan *Feb 2026 - Present*

- Monitor events and triage alerts in Splunk SIEM; analyze network, endpoint, and system logs.
- Investigate suspicious activity and potential indicators of compromise; escalate suspected incidents.

SOC Analyst L1 | Sr Holding, China *Sep 2025 - Feb 2026*

- Monitored security events and analyzed network, endpoint, and system logs in an international SOC.
- Triaged alerts and conducted first-line incident investigations before escalation.

Network Security Project Participant | Kazakhtelecom (Sapa+), Kazakhstan *Jan - Jun 2025*

- Supported secure network infrastructure and monitored network security events in a telecom environment.

SELECTED SECURITY PROJECTS

- **KD_SEC Security Tools** | Built passive TLS, HTTP header, cookie, CORS, and exposed-file checks, plus OSINT lookups using WHOIS/RDAP, DNS, certificate transparency, and Wayback.
- **PentestAI (design stage)** | Documented architecture for AI-assisted web penetration testing with verification and evidence requirements.
- **HackShield (graduation project)** | Developed a gamified cybersecurity training platform with React, TypeScript, and Supabase.

EDUCATION

Astana IT University | Astana, Kazakhstan *30 Jun 2026*
Bachelor's Degree in Cybersecurity (6B06106)

CERTIFICATIONS AND TRAINING

- **Certified Practitioner in Prompt Injection and Input Integrity** | DarkControl Certify; practitioner exam; 15 Oct 2026
- **CyberShield Certified SOC Analyst (CSCSA)** | CyberShield Academy / State Technical Service; qualifying exam
- **Introduction to AI Security** | AISEC University; course completion, 2 hours; 29 Sep 2026
- **Red Hat System Administration I (RH124)** | Red Hat; certificate of attendance; 11 Jul 2025
- **Securing Cloud and Hybrid Networks** | LearnQuest / Coursera; course completion; 6 Feb 2025
- **Next-Generation Firewalls and Intrusion Prevention** | LearnQuest / Coursera; course completion; 6 Feb 2025
- **Exploratory Data Analysis for Machine Learning** | IBM / Coursera; course completion; 6 Feb 2025
- **Supervised Machine Learning: Regression** | IBM / Coursera; course completion; 6 Feb 2025

SKILLS AND LANGUAGES

AI security testing: Prompt injection, adversarial inputs, attack scenarios, reproducible test cases, vulnerability analysis
Security operations: Splunk SIEM, event monitoring, alert triage, log and IOC analysis, network security
Tools and scripting: Python, Docker, command-line tools, YAML, Linux, Git, Wireshark
Languages: Kazakh (native), Russian (C1), English (B1), Chinese (HSK 5)
